1/2" x 3/8" Set Screws

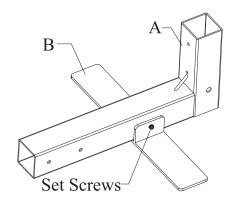

1/2" x 5-1/8" Hex Bolts

5/8" x 6-5/16" Hex Bolts

# STEP 1

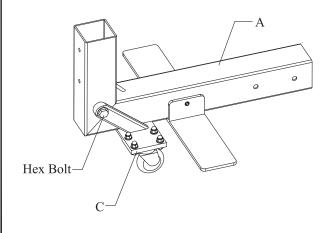

Put the End Couplers (A) on the Stabalizer Legs (B), then fix them with Set Screws as shown.

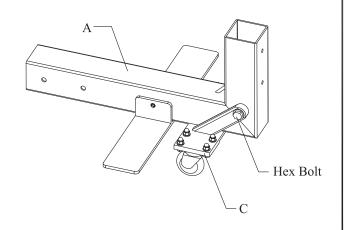

# STEP 2

Attach the Flip-down Wheel Sets (C) to the End Couplers (A) with 5/8"x 6-5/16" Hex Bolts as shown.

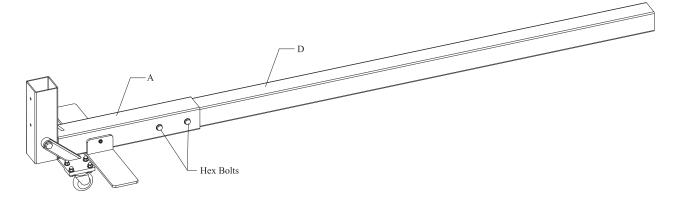

1/2" x 4-5/16" Hex Bolts

½" x 3/8" Set Screws

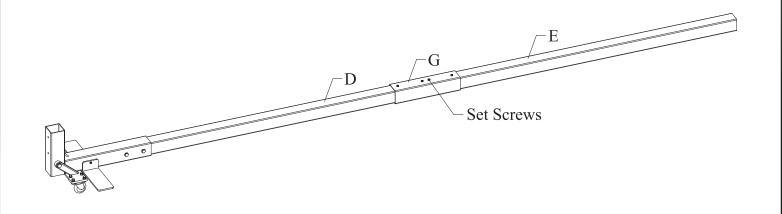

# STEP 3

Slide the End Cross-member (D) into the End Coupler (A), then tighten tighten them up with  $\frac{1}{2}$ "x 4-5/16" Hex Bolts as shown.

# STEP 4

Connect the End Cross-member (D) and the Middle Cross-member (E) with the Side Coupler (G), then secure them with Set Screws as shown.

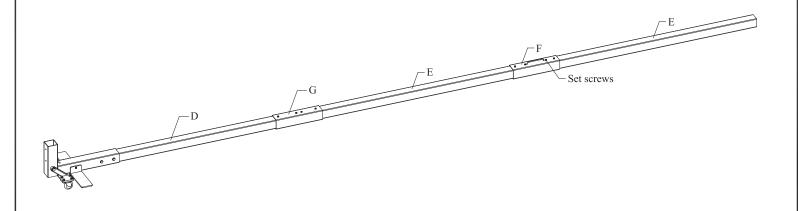

½" x 3/8" Set Screws

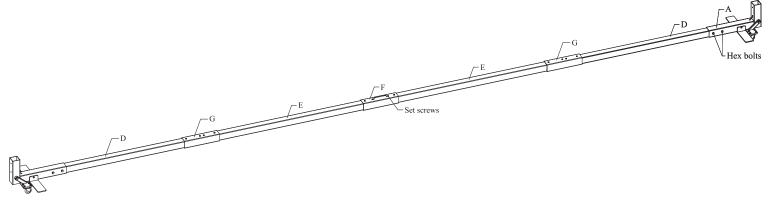

## STEP 5

Connect the Middle Cross-member (E) together using Center Coupler (F), then use Set Screws to secure all parts.

# STEP 6

Connect the End Cross-member (D) with the Middle Cross-member (E) using the Side Coupler (G), then secure all parts with the Set Screws as shown. Next, attach the other End Coupler (A) to the End Cross-member(D), using the ½" x 4-5/16" Hex Bolts as shown.

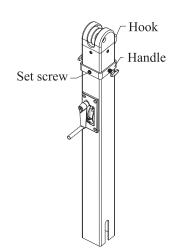

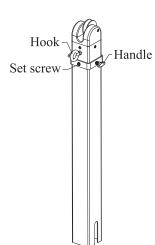

1/2" x 3/8" Set Screws

# STEP 7

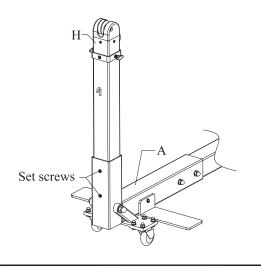

Fix lifting collar in position with set screws and handles, then attach the hook to the post as shown. Repeat this process to install the other post as shown.

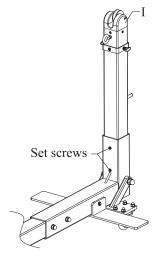

# STEP 8

Slide the Left Pickleball Post (H) into the End Coupler (A), then use Set Screws to tighten the post in place. Repeat this process to install the other Right Pickleball Post (I) as shown.

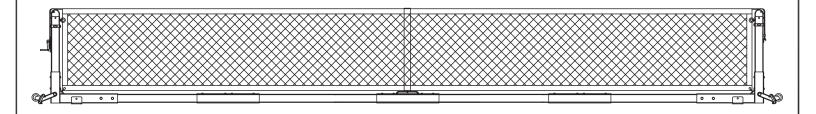

# STEP 9

Install the net to the pickleball system as shown.

- \* Net should be tighten until the center of the net is  $34 \frac{1}{2}$ " to 35" tall. Then, pulled down to meet the 34" playing height at the middle of the net.
- \* Do not overtighten the net.

# Maintenance

Add lithium grease to the winder and ratchet as needed for smooth operation.
